## **GUIDELINES FOR COMPLETING THE APPLICATION FORM**

### **Section 1 – Information about Your Organisation**

This section looks for information about you and your organisation. It requires the name, address and contact details of the person in your organisation or group that can be contacted in relation to the application.

It looks for a few lines about the main aim of your group or organisation  
(Examples: Community Playgroup, Arts, Project for women, Community Association, Estate Management Group, Active Retirement Group).

It also looks for information on the Community based stakeholders in the project and details of any consultation process undertaken.

Your group must have legal status. Examples of the legal status of your group could be Company Limited by Guarantee, Charity, Trust or a Co-operative. In some circumstances groups that have a bank account and a recognised committee structure with accounting procedures that are transparent, will be considered.

### **Section 2 - Information about Your Project**

This section looks for the name or title of the proposed project as well as the location of the project and a brief description of the project that you are looking for funding for. (The map provided must be of a scale of 1:2500)

The application also asks you to clarify in whose ownership the land or building is; proof of ownership will be required. A letter that indicates permission from the land owner or owners should support the application. If you are leasing the land or building a lease of no less than 10 years is acceptable.

If you require planning permission for your project further information is available from the Planning desk at County Hall, John's Street, Kilkenny.

Details in relation to the management of your project should include both the management structure of your organisation or group – (i.e. Chairperson, Secretary, Treasurer), and their contact details as well as any staff that may be employed who will have responsibility for the project. If there are specialists' skills within the group that relate to the project these should be highlighted also.

This section also looks for information on the need for the project (i.e. how was it decided that this project is to be provided, did the community undertake a needs analysis, community survey etc). It also asks how the project adds value to any existing project (this is especially relevant if an existing project is being extended or improved).

## **CLIMATE ACTION & SUSTAINABLE DEVELOPMENT<sup>2</sup>**

It is Council policy to support and promote projects and programmes which adhere to the principles of sustainable development and climate action. Applicants are also required to demonstrate how they are adhering to these principles. Applicants are also encouraged to undertake specific actions, as part of their overall project, which address these principles. This may include, but are not limited to:

- Actions that reduce carbon emissions (e.g energy saving heating and lighting provision of bicycle racks and other infrastructure to encourage cycling),
- Age friendly actions (e.g provision of age friendly seating, parking etc), use of native plant species in all planting schemes,
- Adoption of Pollinator friendly actions and projects
- Water reduction measures.

Advice on these topics is available from Kilkenny County Council.

### **Section 3 - Information about Benefits of the Project and Future Maintenance**

Social inclusion means that you undertake to include all people in the community and have a **positive discrimination policy** towards the following groups of people: Older people, people with disabilities, women, youth and children, Travellers, migrants, refugees and foreign nationals/new communities (different ethnic groups). Your application will be assessed with regards to your group's intentions and current practice: It is important therefore to outline on your application how your group currently includes all people in the Community and how they will be accommodated in the new/improved facility.

**In developing any facility as per the application, it is important to have consulted with the community or any target groups that you intend to cater for.**

The project must actively benefit the whole community but those projects that meet the needs of any one or all of the groups above will be considered favourably.

The quality of the project will be ensured through giving evidence of and demonstrating appropriate policies and or practices including health and safety.

The future maintenance of the project should be clearly set out including who will be responsible for maintenance, how you plan to undertake maintenance as well as identify the ongoing budget your group has for maintenance.

#### **Section 4 - Information about the Funding for Your Project**

Information about the funding of the project should include what specific costs are involved with the actual project. You must adhere to procurement procedures as outlined. This part of the application requires you to **outline the total costs**, your contribution including any voluntary labour and how much you are seeking under the scheme.

The detail in relation to funding you already have available and funding you are seeking should be outlined. You **must** show proof of the matching funding in place – this will include details of matching funding and their source, including grants, voluntary labour, and cash raised locally etc. It should be clearly outlined and evidence provided (e.g. bank statement).

Voluntary Labour may be used as a source of match funding - a system for logging hours will be discussed once your application is deemed successful.

#### **Section 5 - Declaration**

The application form must be signed and dated by a nominated person of authority within the applicant organisation. Failure to complete this section will result in the application not being considered for funding.

#### **IMPORTANT:**

**If you are found to have submitted false or fraudulent documentation or are found to be purposely misleading Kilkenny County Council in any way, funding will be withdrawn and the Council will bar you from applying for future funding.**
